Cloud Library

We are excited to announce a new eBook platform called Cloud Library.

The Cloud Library app features the ability to customize your own book shelves and easily browse for favorite genres. It keeps all your books in sync, meaning wherever you choose to read your books, you'll always have the same content with you; your books stay connected across all of your devices. The system will automatically remember which page you left a title on, allowing you to pick up that great novel where you left off.

To use Cloud Library, simply:

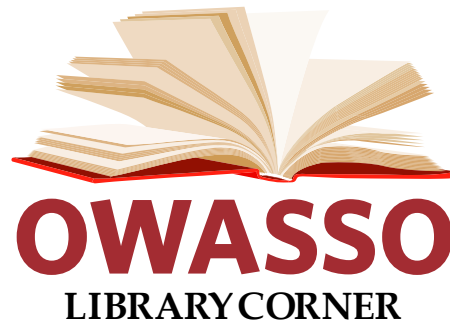

Download the app: Download the Cloud Library App from the Apple App Store, Google Play, or install the Windows PC or Mac Cloud Library App.

Log into your library: Using the drop down menu, select your state and library, and enter your library ID and PIN. Click agree to the terms and log in.

Browse, borrow and read: Now you are ready to browse, borrow and read eBooks from the library.
