Be the first to know with Wowbrary

If you would like to be among the first to learn about the newest books, DVDs and CDs acquired by the library, you should consider signing up for Wowbrary. It's free and very cool.

Wowbrary is a public service that sends you a weekly email newsletter showcasing Tulsa City-County Library's most recent acquisitions. All titles are neatly categorized to save you time, with descriptions, reviews and a click-through to the library catalog for placing reservations.

Once each month, Wowbrary also includes a link to Bestsellers Coming Soon, a list of hot titles recently ordered by the library. This is your chance to reserve copies of the newest blockbusters months before they are published.

Go to www.wowbrary.org/signup.aspx to sign up or, call the Collinsville Library

at (918) 549-7528 and we will do it for you.

Job hunting, the library can help

The first thing to do before any job search is to set up an email account. Employers often ask you to email your resume or a job application. Be one step ahead and have it ready to go.

Collinsville Library staff can help you set up an email account and teach you how to email your resume to prospective employers. Most employers also require you complete an application online — and we can help you with that, too. Stop by during business hours or call (918) 549-7528 to make an appointment.

What we're reading

Sgt. Reckless: America's War Horse, by Robin L. Hutton

The story of the Mongolian mare, who, despite only measuring about thirteen hands high, became an American hero for her actions during the Korean War, being awarded two Purple Hearts for her valor and being officially promoted to staff sergeant twice, a distinction never bestowed upon an animal before or since.

X, by Sue Grafton

Perhaps Grafton's darkest and most chilling novel, it features a remorseless serial killer who leaves no trace of his crimes. Once again breaking the rules and establishing new paths, Grafton wastes little time identifying this sociopath. The test is whether Kinsey can prove her case against him before she becomes his next victim.
