New books are available at the Collinsville Library

The Melody Lingers On, by Mary Higgins Clark

A beloved aunt's agreement to help her niece with college essays reawakens past secrets about the night a grandparent was murdered, an event that compels the woman to investigate a treasured music box to uncover the truth.

Edge of Dark: The Glittering Edge, Book One, by Brenda Cooper

What if a society banished its worst nightmare to the far edge of the solar system, destined to sip only dregs of light and struggle for the barest living. And yet, that life thrived? It grew and learned and became far more than you ever expected, and it wanted to return to the sun. What if it didn't share your moral compass in any way? The Glittering Edge duology describes the clash of forces when an advanced society that has filled a solar system with flesh and blood life meets the near-AI's that it banished long ago. This is a story of love for the wild and natural life on a colony planet, complex adventure set in powerful space stations, and the desire to live completely whether you are made of flesh and bone or silicon and carbon fiber.

1636: The Cardinal Virtues, by Eric Flint & Walter H. Hunt

Book #19 in the multiple New York Times best-selling Ring of Fire series. After carving a free state for itself in war-torn 17th century Europe, citizens of the modern town of Grantville, West Virginia must contend with France's infamous Cardinal Richilieu, who is determined to keep his grip on power no matter what history says. About the Ring of Fire Series, Booklist says "reads like a technothriller set in the age of the Medicis."

Programs at the Collinsville Library
