Universal Class featured service for October

If you are ready to learn something new, improve your skills or need some motivation to start a project, Universal Class is a great place to get started.

Universal Class offers free online continuing education classes with a valid Tulsa City-County Library card. To find Universal Class, visit www.tulsalibrary.org, find the "Research and Learn" tab and click on adult learning.

The adult learning guide features Universal Class on the right hand side. Just sign in, choose your class or classes, and start learning.

Some of the subject areas include: home and garden, office skills, homeschooling, crafts and hobbies, career training, finance, art and photography, business, and alternative medicine.

New Universal Class fall schedules are available in the lobby of the Owasso Library.

Descriptions of a few of the hundreds of classes available in Universal Class:

Aromatherapy 101

This class will teach you the secrets of how to blend ingredients and make your own bath and massage oils, hand and face lotions, room refreshers and potpourri.

The class is a self-paced beginner's course explaining aromatherapy and showing you how to incorporate fragrance in your life.

You'll learn a little about the plants and the history, the difference between essential oils and carrier oils, how to dilute and blend, where to buy the oils and supplies, and the correct way to measure and blend.

You will be able to create some beautiful homemade Christmas gifts after completing this course.

Creative Writing Workshop

There are many forms of creative writing, from fiction, to poetry, to stage play and screenplay.

Within each form there are countless genres and flavors. As a writer, you can (and should) try your hand at as many forms as you like, or you can specialize in one.

There are techniques and practices that are common to all forms of creative writing, and these will be discussed in this class.

We will also touch on the challenges and techniques that make writing in the

different forms unique. Throughout this course, you will find numerous exercises designed to get your brain — and your hand — moving.

Dog Training All-In-One: Beginner to Advanced Techniques

Learn about the world of dog training, starting with dog training history and breed recognition, which will offer insight to breeds' intelligence.

You'll not only learn basic dog training guides, but also learn the common advanced commands like stop, steady, back up, and give, and then determine whether or not you and your dog are ready for Off-Lead Training.

We'll explore various methods of advanced training including Clicker Training.

Meditation 101

Meditation is a practice by which a person achieves a greater sense of awareness, wisdom, introspection, and a deeper sense of relaxation. In this course, we will explore the various techniques of meditation, such as sitting, standing, and yoga.

Becoming aware of your thoughts, surroundings, sounds, smells, bodily movements, and especially your breath are fundamental techniques of meditation. Meditation is about being comfortable and at peace.

As we explore techniques of practicing meditation, you can pick and choose those practices that make you most comfortable.

How To Write A Business Plan

A well written business plan takes time, patience, detail, research, and a right approach to presentation. This course will walk you through the process of writing your business plan.

You will learn why certain details are vitally important, which parts of your business plan can make or break your finance query with investors, and how to sharpen your public presentation of your company and its business.

You will also learn some writing tricks to help you create a polished written plan without necessarily having to hire someone to write it for you.

At the end of this course, you should have enough information to make a well informed effort in writing your business plan.
