"With the incredibly high use of smartphones today, Tulsa City-County Library recognizes we can reach customers and help them find information and entertainment beyond the walls of the libraries throughout Tulsa County," said Charlotte Frazier, deputy director of support services.

"Customers will enjoy the immediately available access to e-books and audiobooks. With 'BookLook' they can quickly scan any book's barcode to see if it is available for checkout from the library."

The mobile app updates include:

- Apply for a library card from your device
- "BookLook" lets you scan a book's barcode to see if the library owns a copy
- Menus available in Spanish
- Access eBooks available for immediate checkout
- Shortened menu text and combined social media options

You can even learn a new language with "Mango Languages Mobile Library" or text a librarian with questions.
